• Education

TrueCoders: Advanced Technical Training

August - October 2020

Birmingham - Alabama USA

The True Coders training program is a project and lecture-based training program that aims to fill the growing need for data science and software development jobs in Alabama. Projects include multiple personal and group-oriented tasks that involve multiple programming languages over the course of the program.

Over 500 hours of intensive, project-based training in programming languages and other technical skills, such as C#, .NET Core, Git, ASP.NET MVC, HTML, MySQL.

Universidade Paulista UNIP - Management in Logistics

São Paulo - Brazil

• Experiences

BestBuy CRUD Database Website

C# | ASP.Net Core MVC | SQL | HTML | CSS | JavaScript

- ORM connection to a local(BestBuy) database, using Dapper an MySQL.
- C# and Razor are used to generate HTML pages for adding, listing, updating and deleting products(CRUD).
- MVC methodology is utilized for concise code authoring.

Tacobell Geolocator

C# | .Net Core | SQL | xUnit

- Project for exercising Test-Driven Development(TDD) with xUnit
- Tests for model(TacoBell store) parsing code are contained in the project solution
- Given a list of stores, the project finds the two which are furthest apart.

• About me

- Experience in the commercial area, where I acquired extensive knowledge of sales, negotiation, administration and training salespeople.
- Ability to demonstrate software.
- Closing software licensing contracts for large volumes.
- Contact with international suppliers via email, phone and translation of lectures.
- Responsible for developing new markets and customers. Promoting products in Seminars, Trade Shows, Commercials and visits to customers.
- Development and implementation of marketing projects, generating sales growth.
- Experience in software implementation, training and support to users.
- Dynamic, proactive and easy interpersonal relationship.
